

Order SEMA Learn

Delivery by E-Mail:	<p>The license is only for educational purposes - any commercial use is strictly prohibited.</p> <p>The package SEMA - Learn provides students and teachers with an easy-to-use software solution for sophisticated timber construction. The integrated add-on 3D Visualisation offers the possibility to add 3D furnishings from an extensive component library for customer presentations. Different data formats (IFC / XML / ...) as well as an optional export to a structural analysis software (FRILO licencing www.frilo.eu/en/student-license/) are available for the bidirectional data exchange with other crafts/specialist planners.</p> <p>Complex constructions can be entered and evaluated easily and at the same time efficiently in a clear user interface. A detailed layer structure of the wall, floor and roof elements, an automatic spacing of the members and claddings as well as an extensive library of industry-specific fasteners and tiles (substructures included) simplify the planning.</p> <p>Planning will become more efficient by simple quantity surveying, all quantities are directly available for orders, material planning, offer calculation, etc. All constructions can be joined manually.</p> <p>The package SEMA - Learn doesn't include either the add-ons for measurement or for machine data export.</p> <ul style="list-style-type: none"> • free access to our e-learning platform SEMA College during the period of use • free updates during the license period • free technical support during the license period
